First, I'd like to thank my Mom and Dad for everything. You are great parents! Thank you for helping me by teaching me the skill of how to do things myself. You always had confidence in me. Thanks for your support when needed. Dad, thanks for teaching me how to fish and being my partner in the Norwell Fishing Derby. Allison, have fun your last 2 years! As I look back over the last 4 years, I enjoyed the Latin Class Italy trip but my most memorable experience was FIRST Robotics. It was such a great learning experience and so much fun! I enjoyed the tournaments. We worked hard building our robots but it was well worth it!. Herm. Kwol, and Mr. Nycz made the trips not only educational but fun. Good luck to my friends and classmates! Keep in touch!

Fran, Franimal,

Mom and Dad, you both pushed me to be the best I could in everything, and you never let up. Yes, it got aggravating sometimes, but I am so grateful that you did and I've worked hard to make you proud. Dad, I'm going to come home every weekend just to watch the Patriots with you. I feel like through the years, you've become a friend to me, not just my dad, and I'll always be your little girl in her car seat next to you on the boat. Mom, even though I don't like to admit it, you're ALWAYS right. You always have my best interests at heart, and do everything you can to support me and help me be successful, and I am so grateful for that. I am so fortunate to have you as my parents - you're so supportive and have given me everything I could hope for. I love you guys. Claudia - You've been such a good sister and friend to me. You're always the one to make me laugh, even when you make me mad. I'm gonna miss our spontaneous bonding sessions more than anything. Keep working hard, I believe in you. Sophia and Joseph - you're both so young still. Enjoy being young, but never stop working hard. To all my teachers- thank you for all your support through the years. To all my friends and basketball girls - thanks for making high school amazing. Good luck NHS Class of 2013!

First of all, I'd like to thank my parents, you've been there for me through the good and the bad, and I don't think I'd be the person I am today if it wasn't for your constant love and care. I don't think I'll ever be able to look back on my years at NHS without thinking about the guidance you have even me over the years. I love you both more than I can ever hope to fully explain. I'd also like to thank my teachers, from freshman to senior year, you are all part of the reason I have matured during high school. I'd also like to thank some of my friends, you've been there for me through thick and thin. Caitlin, we've know each other since the age of three and I think it's pretty clear we'll be bro's for life. Aisling, I'm glad I know someone I can have conversations entirely of emoticons with and it actually makes sense. Maggie, Emily, & Lisa, I'm glad that we all have band together, and can bond during long block whether it's at the loner table or in the band office. Finally, I'd like to thank everyone else involved in the band, you're like my second family, whether you know it or not.

Writing this Senior thank you is so surreal to me. Dad, we have bickered and fought over the importance of homework for over four years and the day has come where I can look back and be thankful that I had a dad that wanted to do everything in his power to help make my dreams come true, even if you were a little intense at times. No mater how stubborn I was to realize it, you were right all these years. so thank you. Mom, I honestly don't know what I'd do if I didn't have you these 4+ years. You are my emotional support and the person that gets me back on my feet when I fall of course. Karen, you have devoted so much time helping me understand material and without you I'm almost positive I would have flunked a class or two. Finally my friends, when things get stressful I know I can always turn to you guys to make me laugh and get my mind off of things. Things are going to different next year but I hope things always remain the same with all of us no matter how much time passes.

Alright, I'm going to start by thanking my family. They have helped me get through my four years of high school, even when I felt like giving up. I want to thank my mother for always being on my side no matter what the situation. Without her I don't believe I'd be where I am today. Secondly, I want to thank my Dad for always being on my butt about school. I didn't understand then but I do now. Thank you. I also want to thank my older sister for giving me extra help whenever I needed it, and my younger sister for having my back no matter what. love you guys. I couldn't have a bigger thank you for my favorite former principal, Mr. Keegan. All I can say is thank you for being the most loyal administrator in this building and giving me a chance. Finally, I gotta thank the people I went through this with the most. Without you guys I'd be nothing. Thanks for being the one who see the world the same way I do, you know who you are. There are many people who I would like to give thanks to for my high school experience. First and foremost, my awesome parents who have supported me in every decision I have made in my life. Secondly, a thanks to all of my great teachers, who taught me that school is not just a place for learning but also the place for a good sense of humor. I would also like to thank my sisters Emily and Charlotte for always setting good examples for me and for always being there. My grandparents also deserve my utmost gratitude for supporting me and my endeavors in every aspect. Finally I would like to thank my best friends Brian and Charley for taking me in even though I have only known them for three years, I feel like we have been friends for much longer than that.

There are far too many people I should be thanking, and far too many that I'm probably leaving out. First of all, I'd like to thank my Dad. Your work ethic and values you've given me have helped me in everything I've done. Next, I want to thank my Mom. Your endless care and selfless nature have been more helpful than you can ever know. Shelby and Brittany, thanks for keeping me cool and more importantly for putting up with me. To all my friends, you guys have made high school what it has been for me. We've been through some crazy stuff together. From packed weekends to our ridiculous adventures, I will always look fondly at the times we've spent together, and look forward to what's to come. There are many other people who deserve recognition and gratitude that I've left out. Thank you, everyone, for helping me along the way.

*"Our deepest fear is not that we are  
inadequate. Our deepest fear is that we  
are powerful beyond measure. It is our  
light not our darkness that most  
frightens us. We ask ourselves who am I  
to be brilliant, gorgeous, talented and  
fabulous? Actually, who are you not to  
be? You are a child of God. Your  
playing small does not serve the world.  
There's nothing enlightened about  
shrinking so that other people won't feel  
insecure around you. We were born to  
make manifest the glory of god that is  
within us. It's not just in some of us; it's  
in everyone. And as we let our own light  
shine, we unconsciously give other  
people permission to do the same. As we  
are liberated from out own hear, our  
presence automatically liberates  
others."-Marianne Williamson*

Whatever the future may hold, I know you guys will always be there for me. I couldn't ask for better parents. Kelly Bel, we may have butt heads in the past, but we have shared so many more good times and laugh together - Chatham, Maine and Vermont. You have constantly been there for me. First and foremost I would like to thank my family. Mom, I would not be who I am without a wonderful woman like you in my life. You are my rock and I can always count on you. Dad, with your example I have learned that nothing is impossible. You are one of the funniest guys I know and can always make me smile. Kathleen, I couldn't have asked for a better big sister. You always know what to say and you even let me wear all of your clothes—even the ones with the tags still on them. Jimmy, no one makes me laugh more than you. With your example and advice, the past seventeen years have been a blast. Also a special thanks to my all of my teachers and coaches for caring so much about me. To the XC Ladies- I will miss you all like crazy! You guys are more like sisters to me than just teammates! And to my friends, I love you guys!! I truly think that I have the best friends in the world. I cannot thank you guys enough for making the past couple of years so memorable. Best of luck class of 2013!

Moving to Norwell was the best thing that's ever happened to me. I can't thank every one of you enough for how welcomed you've made me feel from the first day of 8th grade through graduation and beyond. Thanks to my 8th grade locker neighbor, at first I thought you were a little crazy but looking back on it I appreciate the introduction. AP Bio family, those many late nights together freaking out about practically everything were some of the best. Brass, good luck next year without Pat and I. To my best friends, you know who you are, I don't know why I'm mention you here because this isn't goodbye. We are all staying in touch. Same to you Katie, you know exactly what I'm going to say to you and probably could say it better than I can. First to thank of course is my mother and father. Mom, every day of my life, you showed me compassion, care and love. You always rooted for me to be myself and find my own path. Anytime I ever doubted myself, you were there to pick me up and reassure me. Thanks to you, mom, I have complete confidence in myself. Dad, I received so much wisdom and generosity from you. You gave me everything I could ever need to succeed; and you shared with me every lesson you learned through your own path to great success. I am so grateful to have you there for me as my dad. And to Kingsley, the girl who can find a reason to laugh about anything in front of her, you're right, my life will be boring when I don't have you dancing between me and the TV, or keeping me on my toes with your witty remarks. My four years at Norwell High school were a crazy ride, filled with memories. My first good memories started in homeroom. I still remember trying to find Mr. Vacha's room on my first day. My homeroom time was the best introduction to every day. Another great memory I have of freshman year was sitting under the lab tables in my Biology classroom, eating pizza with Kanika. We took off our shoes and hid underneath Mr. Kitchen's tables, but at that point he knew us too well to be overly surprised. Taking AP Biology was crazy; that class forever changed the way I learn, write, and even think about the world around me! My final favorite memory is going crazy with Corinne during Latin throughout the years. We became friends by talking in seventh grade Latin class. Throughout the years we've found hidden meanings in Latin stories, had an hour long laughing fit in Latin III, filmed a movie in the Hanover mall about modern day Apollo and Daphne (I was dressed as a man), and even went to Italy together! It's definitely been a memorable time at Norwell High. There have been many amazing people along my high school journey that deserve a thank you. My family, especially my brothers Edward and Joe, have offered me unconditional encouragement. The two of them helped me stay positive, offered me support, and definitely teased me along the way! My parents were also a huge support and are very much deserving of a "thanks". My parents always made sure I was prepared to succeed, from buying me my notebooks as a freshman, to paying for plane tickets to visit colleges. My mother and father were always supportive of any choice I made, whether it be challenging myself with an AP course as a sophomore, or deciding to switch to CP math. All my friends kept me going over the years. Just when I'd think I couldn't handle one of Mrs. Provenzano's tests, or do one more Warriner's question, I could always turn to my friends. I'd like to give a last "thank you" to my Biology teachers, Mr. Kitchen and Mrs. Provenzano. Biology is a future I began pursuing since my first freshman Bio class, and I've come so far! My high school experience gave me many experiences, and many people, to be thankful for.

Congratulations class of 2013! I would like to thank my aunts, uncles, cousins, and grandparents for always being there to support me through it all. Specifically, I'd like to thank Mrs. Fox and Mrs. Prescott, you two have always been inspirations and role models to me. I would also like to mention my boss, Tony; four years as a Gunther Tooties employee has definitely shaped who I am and has provided me with an abundance of memories that I will always cherish. WINTER

# Small Ensemble Night

These Small Ensemble Nights are the largest portion of Norwell High School's unique and extensive chamber music program. Between December and February, all of the students in the large ensembles (Wind Ensemble, Symphonic Band, Chorus, Jazz Ensemble and Jazz Workshop) split up into smaller performing groups of roughly 1-6 students. Students often choose their own repertoire and rehearse with minimal interference from the faculty, who are present primarily when students hit a rut, to help them to discover solutions to musical and interpersonal challenges. The students research their repertoire, make artistic decisions about how to perform it, and take responsibility for self-preparation, critical listening and group-based problem-solving. In doing so, they develop the independence, confidence, sensitivity, accountability and verbal and non-verbal communication skills that are central to good musicianship. The results are always fascinating and diverse! Each concert features a wide array of styles and genres of music, performed by a mix of vocal and instrumental students from differing backgrounds and levels of experience. Over 100 hundred students will perform in the concerts.
